Ana Weidenkopf

Full Stack Software Engineer

Natick, MA | (339) 204-3265 | aweidenkopf@gmail.com | [GitHub](#) | Portfolio | [LinkedIn](#)

Software developer with a passion for language! My background in project management allows me to think analytically, while my cultural exchange gives me bilingual proficiency and diplomacy. My love for languages fuels me, making me one always eager learner that works to create software that executes flawlessly and eases people's lives.

SKILLS

- Programming Languages: JavaScript, Python
- Frameworks: Express.js, Django
- Databases: MongoDB, PostgreSQL
- Tools: Node.js, Mongoose

RELEVANT EXPERIENCE

Software Engineering Immersive | **General Assembly** | Remote | Aug 2022 – present
Successfully completed 500+ hours of expert-led instruction in front and back end programming languages, frameworks and libraries with hands-on learning of fundamentals and the industry's most in demand technologies. Developed projects, including:

- **Giftology:** Gifting doesn't have to be stressful. Giftology is here to help you gift with confidence! A group project where I wore the hat of the software lead, being the main responsible for the scrum management, overwing the back and front end, making sure things happened as planned or jumping in and helping my teammates to communicate their roadblockers. Between that, I was responsible for implementing the social media aspect of our application, and the design. Built with React.js, Node.js, Express.js, JavaScript and CSS. [GitHub] [[Deployed Link](#)]
- **Meal Planner:** There are lots of meal planners out there, but this is a meal planner built to cease the needs of those who enjoy cooking and baking and have lots of recipes up their sleeves. An app where you can store your favorite recipes with all of your tweaks and then dynamically create your week meal schedule! Built with Ejs, Node.js, Express.js and CSS [[GitHub](#)] [[Deployed Link](#)]
- **Snake:** The nostalgic snake game, a real time game built without the use of Canvas JavaScript, CSS and HTML [[GitHub](#)] [[Deployed Link](#)]

Event Coordinator Intern | Human Growth Foundation | Remote | Sep 2020 – Feb 2021
- Promoted assistance on the online auction for the online Gala of 2020
- Successfully communicated with previous donors obtaining further support.
- Communicated with all donors in a weekly base regarding donation specifics eg., details, donation amount(percentage), logistics etc
- Worked along with the web developer to ensure that the action website met the event manager expectations.

Project Coordinator | State Government | São Paulo | Aug 2017 – Aug 2019

- Authored two grant proposals awarded by the State Government
- Managed a 100,000,00 budget to plan and coordinate one theatrical project and one dance project with local artists.
- Delivered 6 months of a theatrical season and 6 months of a dance season, 10 workshops on the theme of the artistic groups presenting work and 3 lectures about the content and methodology used for developing the play or dance presentation.
- Managed to decentralize all of the events, ensuring that all of the activities happened in different parts of the city lifting underserved communities through access to art.

EDUCATION

General Assembly | **Software Engineering Immersive** | Remote
University of North Carolina at Charlotte | **Non-profit Administration Certificate** | Remote
SENAC | **Dramatic Arts Associates Degree** | São Paulo
